# F&Q

## What is your shooting style?

- Our videographers are unobtrusive and candid. We believe in a "fly-on-the-wall" approach. The best compliment we can receive is, "I didn't even notice you were there, but I know you captured all of our special moments".

## When do you start filming on our wedding day?

- All of our packages begin at the ceremony site but we suggest starting the day with the prep. Some of the best moments of the day take place during the getting ready - this is a great time to capture all of your details on video.

## What is a Recap Video?

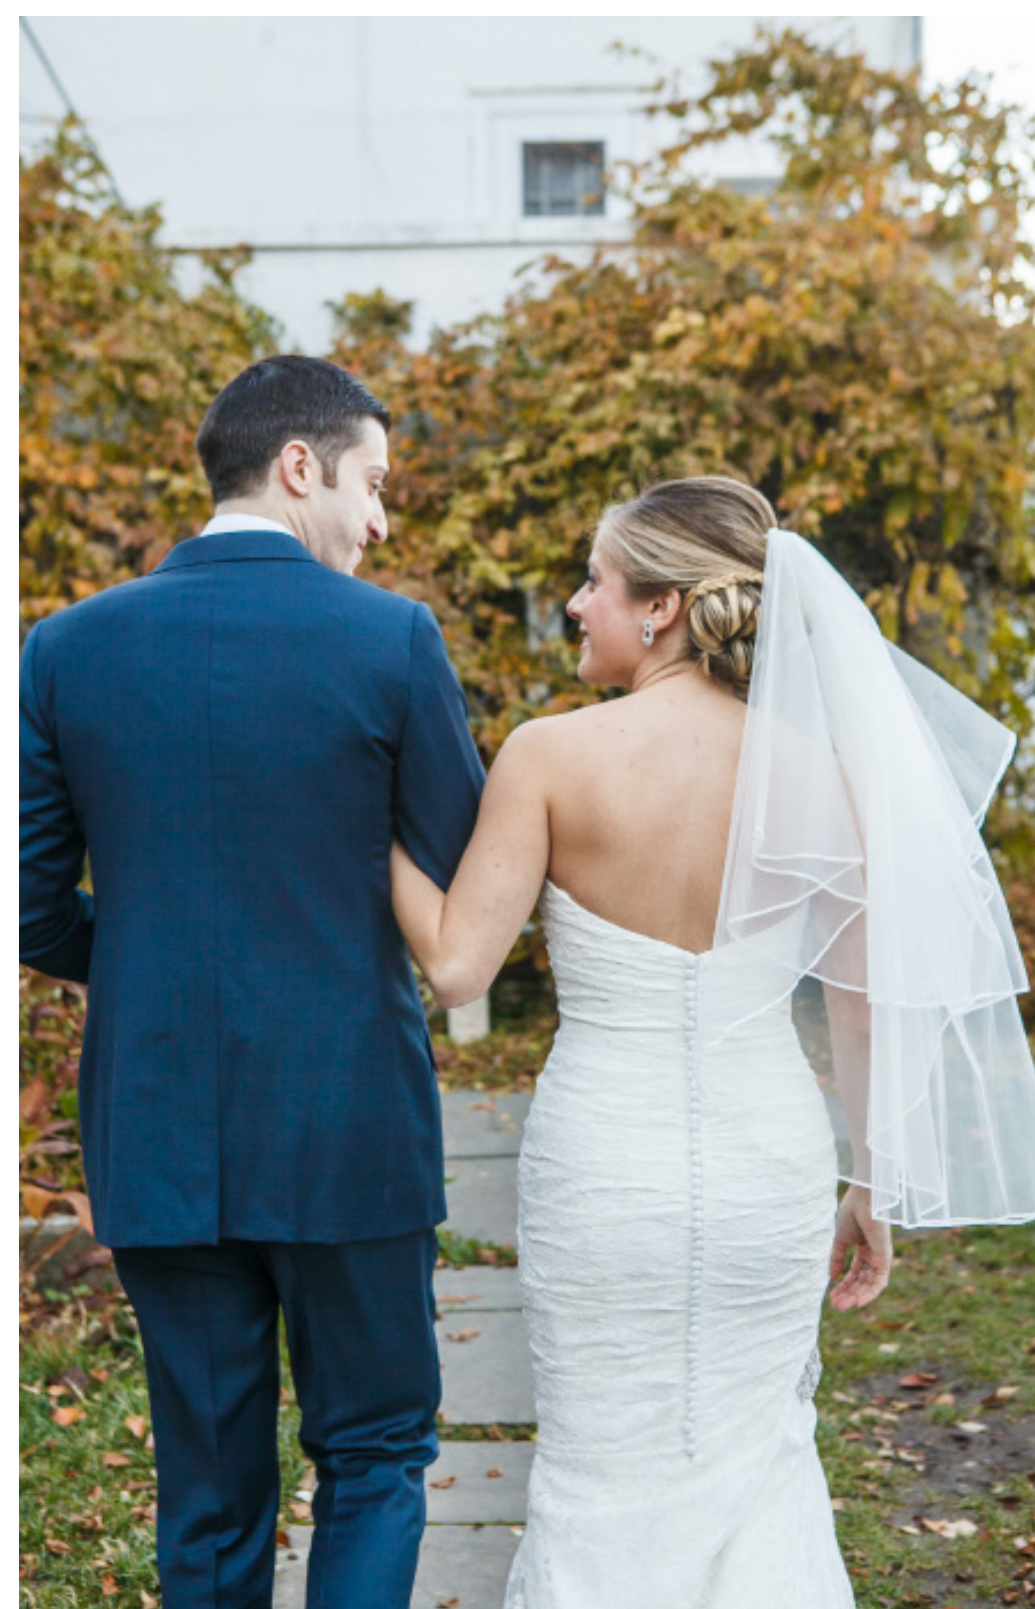

- The Recap is our most popular feature. It is a short 3-5 minute high-light video of your wedding day. The Recap is a great way to relive your special day in under five minutes.

## Do you use bright blinding lights?

- Nope. We use small 10-20 watt lights just to give a soft fill of light during the reception when the lighting is typically very dark.

## How will the sound be captured?

- Sound is 50% of any video production. We take great care in capturing professional quality sound to enhance your video. For the ceremony, a small unnoticeable microphone captures great audio of the vows. For both the ceremony and reception, a professional cardioid shotgun microphone is utilized in conjunction with a Dolby Digital stereo microphone.

# F&Q

## When do we receive our video?

- Please allow 8-10 weeks for your the Basic edit and 12 weeks if you have a cinematic edit.

## What is the length of the edited video?

- Depending on which package works best for your wedding day, the long form will be anywhere from 60-120 minutes in length. The Recap video will be 3-5 minutes in length.

## Can we customize our package?

- Our video packages are only a framework; they're fully customizable to fit every couples needs.

## We are ready to book, now what?

- We can't wait to document your wedding day! We book on a first come, first serve basis. Until both the signed contract and retainer are received, we continue to accept inquiries for your date. Once both are received, we are officially yours!

## What is your payment plan?

- A \$300 non-refundable retainer reserves your wedding date. Two weeks before the wedding, 50% of the balance is due. Upon completion of the video, the remaining balance is due in full.

After the wedding day is over, all that remains to relive the day are the photos and video. Wedding photographs are beautiful and wonderful but there is nothing that compares to a bride who can watch and listen to her father tell her that he loves her. Video captures the people that matter the most to you and that moment is forever captured on video.

Thanks for taking an interest in our work! We hope we were able to answer some of your questions. If you have any further questions, please don't hesitate to contact us by filling out the contact form on our site or by e-mailing at [info@chrisfig.com](mailto:info@chrisfig.com)
